PROFILE SUMMARY

Computer Science undergraduate with strong foundations in **full-stack development, backend engineering**, and **scalable software systems**. Proficient in **JavaScript, Java, Python**, and familiar with **GoLang**. Hands-on experience building **scalable web applications, RESTful APIs**, and responsive frontend interfaces using **React.js** and modern web technologies. Skilled in **SQL queries, database design, API integration, debugging**, and writing **clean, maintainable code**. Familiar with **Docker, Git, Agile methodology**, and cloud platforms including **AWS/Azure**. Passionate about building reliable, high-performance products and quickly adapting to new technology stacks.

EDUCATION

Chandigarh Group of Colleges, Jhanjeri <i>Bachelor of Technology in Computer Science and Engineering</i> CGPA: 9.10	2023 – 2027 Punjab, India
Ishawar Singh Dev Samaj Sr. Sec. School, Sector 21-C <i>Senior Secondary Education</i> Percentage: 84%	2023 Chandigarh, India
Ishawar Singh Dev Samaj Sr. Sec. School, Sector 21-C <i>Secondary Education</i> Percentage: 91%	2021 Chandigarh, India

PROJECTS

SmartLab: DSA Visualizer GitHub - Developed an interactive React-based platform to visualize core data structures and algorithms. - Implemented step-by-step animations to demonstrate execution flow and internal state changes. - Optimized rendering performance and state updates for smooth real-time visualization. - Integrated Piston API for multi-language code execution and user-driven testing. Tech Stack: React.js, Node.js, JavaScript, HTML5, CSS3 Achievement: Ranked Top 10 (8th place) among 130+ teams.
Smart Retail AI Optimization System GitHub - Developed a full-stack MERN-based application for retail analytics, inventory monitoring, and sales tracking. - Built scalable RESTful backend APIs using Node.js and Express.js to efficiently handle application data flow and service communication. - Designed responsive frontend modules using React.js to visualize business metrics and real-time operational trends. - Worked extensively with structured business data using MongoDB and practiced writing optimized query operations for efficient retrieval. - Performed debugging, feature enhancement, and backend optimization to improve application scalability, responsiveness, and reliability. - Used Git/GitHub for version control and collaborative development workflows. Tech Stack: MongoDB, Express.js, React.js, Node.js, JavaScript, REST APIs
Wanderlust: Travel Itinerary Planner GitHub - Developed a React-based travel itinerary planner that generates personalized plans based on budget and trip duration. - Built a clean and responsive frontend with reusable components for a smooth planning experience. - Integrated external REST APIs for route planning, location visualization, and real-time travel assistance. - Consumed weather APIs to provide real-time weather insights for destinations. - Focused on improving frontend responsiveness, API handling, and user experience optimization. Tech Stack: React.js, JavaScript, HTML5, CSS3, REST APIs

SKILLS

Programming Languages: Java, JavaScript, Python, C++, Familiar with GoLang

Frontend Development: React.js, HTML5, CSS3, Responsive UI Development

Backend Development: Node.js, Express.js, RESTful APIs, API Integration, Scalable Backend Services

Database Management: SQL, MySQL, MongoDB, Oracle, Query Optimization

Cloud & DevOps: Docker, CI/CD Basics, AWS, Azure (Foundational Knowledge)

Tools & Technologies: Git, GitHub, Postman, Firebase, npm

Software Engineering: OOP, Debugging, Unit Testing, Clean Code, Performance Optimization, Problem Solving

Core Computer Science: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Agile Methodology, Scrum

Soft Skills: Communication, Team Collaboration, Adaptability, Ownership, Time Management

ACHIEVEMENTS & PARTICIPATION

Finalist Venture Vault Season 2 Hackathon, CGC University

- * Ranked **Top 10 (8th place)** among **130+ teams** for building the **SmartLab DSA Visualizer**.

Finalist Zinnovatia 2.0 Hackathon, Chandigarh

- * Recognized for strong problem-solving and technical implementation.

Award of Merit CGC University

- * Awarded for consistent academic excellence and strong performance.

Competitive Programming

- * Solved **500+ coding problems** across **LeetCode**, **CodeChef**, and other coding platforms.
- * Maintained a **365+ day coding streak** on **CodeChef**.

Experiential Learning Program SmartBridge & NASSCOM FutureSkills Prime

- * Selected for an **experiential learning program** in collaboration with **SmartBridge** and **NASSCOM FutureSkills Prime**.

CERTIFICATIONS

Java Skill Test (Score: 96%) CodeChef

- * Demonstrated strong proficiency in Java programming and problem-solving skills.

Android Development using Java & Kotlin Udemy

- * Learned to build native Android applications with modern development practices.

Artificial Intelligence & Machine Learning Internship Pantech AI Lab

- * Completed training in AI/ML concepts and practical implementation of intelligent systems.

Web Development Internship & Training Wayspire EdTech

- * Developed full-stack web applications and gained hands-on experience with modern technologies.

AWS Certification

- * Gained foundational knowledge of cloud computing, AWS services, and scalable infrastructure.

Database and SQL Certification Infosys Springboard

- * Built practical understanding of **SQL queries**, **database design**, **data retrieval**, **joins**, and **relational database concepts**.

Experiential Learning Program SmartBridge & NASSCOM FutureSkills Prime

- * Selected for an **experiential learning program** focused on practical industry-oriented learning and project-based development.
